Penn State University Forensic Science Program
Graduate Students applying for summer support.

Graduate Students in the program will be offered \$4,000 for the summer (May 15 to August 14) as a stipend to work in a faculty member's lab or work with the faculty member on a specific research project. The \$4,000 will be paid in two \$2,000 payments. One payment will be paid at the end of June and the other payment at the end of July.

Upon accepting the stipend the graduate student must agree to meetings every other week with the faculty sponsor and upon these meetings produce adequate progress on the research project. These meetings can be held electronically at the discretion of the adviser. If it is determined that sufficient progress is not being made by the end of June, the student may not receive the second stipend allotment.
